EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 9, line 6, delete "placable" and replace with ---placeable---

Claim 14, line 6, delete "placable" and replace with ---placeable---

Claim 26, line 6, delete "placable" and replace with ---placeable---

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1, 14, 17, 22 and 26 teach the limitation of using wobble riveting to secure a co-axial roller contact bearing. Claims 1, 14 and 22 state that the inner race of the bearing is fixed by wobble riveting. Claim 17 states that rolling contact bearing is connected to either the connecting rod and driving arm by wobble riveting. Claim 26 states that the riveted bolt is wobble riveted to the inner ring of the deep groove ball bearing.

None of the prior art references teach using wobble riveting to secure a co-axial roller contact bearing on wiper blades. Wobble riveting is a type of riveting that allows for "no play" between the inner and outer races. None of the references teach using wobble riveting as a method of riveting the bearings to either or both the control arm and/or the drive arm, nor would

it have been obvious to modify the prior art to use wobble riveting since there is no motivation or teaching for doing so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
